with Beater Brush

**Fast Introduces a
New Standard in 2010**

- **20 New Improvement Points**
- **Twin Motors**
- **High Filtration**
- **High Quality Manufacturing**
- **Designed For Commercial Use**

HOW TO SELL A FAST VACUUM CLEANER !

It is a COMERCIAL / INDUSTRIAL vacuum cleaner!

- **The commercial vacuum cleaner is designed for:**
 - Everyday use, not once per week like household machines
 - Vacuuming large areas – 200 m² and upwards
 - High performance – can vacuum very fast
- **THE PRICE:**
 - The machine is manufactured in HOLLAND – Dutch Technology – it is imported
 - The machine has superior quality parts
 - The machine **CLEANS BETTER AND FASTER** than a house hold vacuum
 - The machine lasts longer than house hold vacuums
 - The machine can be fully serviced – all spares available
- **Fast UP350 has:**
 - an **INDUSTRIAL** vacuum motor – 1000W
 - The motor has a **greater air-flow** (how much air passes through the motor) than your normal house-hold vacuum cleaner
 - a **BEATER BRUSH**
 - brushes the carpet pile
 - acts as a broom to lift sand from between the carpet fibres
 - Special Filter
 - High Filtration **HEPA** filter
 - It stands for: **High Efficiency Particulate Air**
 - Filters 99% of all dust particles
 - **Very strong designed Chassis structure** ABS PLASTIC – designed for prolonged usage
 - Is **QUIET** – 67 decibels of sound
 - 350 mm wide suction head
 - Tooling all carried on machine
 - EXTRA LENGTH **TELE-SUCTION PIPE** with expanding hose
 - **CAN vacuum curtains** – very high up
 - Can reach to **3.5 metres high**
 - CAN USE **cloth bags** or paper bags
 - **NON MARKING** wheels – great for not marking tiles or light colour carpets
